

How we use your data for our events

This document will tell you how we use your data for our events. We will talk about two types of data here: photos and videos taken at our events, and the information we gather in our sign-up sheets. How we use other types of data can be found in our full privacy policy. If you have any questions, feel free to contact us at info@vsa-nijmegen.nl.

Photos and videos

Board members and committee members may take photos and videos at our events. We use these to promote our association. We want to give potential new members an idea of what it is like to be part of our association, and photos and videos are one of the best ways to do this. They're also nice for members to look back on so they can remember how fun the event was!

At the start of the event, a board member or committee member will tell everyone that they will be taking photos and videos at the event. They will ask for your permission for this. If you do not want to be in our photos or videos, you can tell them and they will make sure you aren't in any. Did you forget to tell them during the event, but do you not want your pictures to be put online? Then you can send an email to info@vsa-nijmegen.nl and we will make sure your pictures aren't used. You can also send an email if you want us to delete the photos and videos you are in.

After the event, the board member or committee member will upload the photos and videos to our Google Drive. Only board members and committee members have access to these. We will select the best pictures, and these may be used on our social media (like Instagram), our website, and in our newsletter.

Photos and videos that we share on social media and on our website can be seen by everyone who visits these. Pictures we share in our newsletter are only visible to our members.

The pictures we didn't select will be deleted at most 1 year after the event was held. The pictures that we did choose will be stored for longer than that. We would like to keep using the best photos and videos to promote our association. If you want us to stop using one of the pictures, please send us an email!

Sign-up sheets

Some of our events have a sign-up sheet. This may be because there are only a limited number of people who can join, or because we need some information about you to be able to organise the event. Our sign-up sheets ask questions that allow us to do this. The questions we ask in sign-up sheets may vary depending on what we need to know, so the information we store is always different. We will always try to ask for as little personal information as possible, because we do not want to store more private data than necessary.

Sometimes, we may ask for information that is not necessary for us to organise an event. In that case, these questions will be optional, so you can choose for yourself if you would like to answer them. As an example, we may ask if you want to host an event at your home, and then ask for your address. In that case, if you do not want to host the event, you do not need to share your address with us.

We do not need the information in the sign-up sheets anymore after the event is done. Therefore, the answers will be deleted at most 1 month after the event.
